# Previ<sup>meteo</sup>

**dimanche 21 décembre**

## Ephémérides

## Saint Théophile

The diagram illustrates the movement of the Moon from Lever to Coucher. It features two yellow crowns representing the Moon's positions at 09h00 and 17h17. A curved yellow arrow points from the lower crown (09h00) to the higher crown (17h17). The text "Lever" is positioned above the lower crown, "Coucher" is above the higher crown, and "Lune" is to the right of the crowns.

## Prévisions

 Vent faible à modéré du Sud-Est  
10-20 km/h

 Matin : 46  
Soir : 44

 Alternance de fortes averses et d'éclaircies durant toute la journée

## Ephémérides

## Saint Pierre

The diagram illustrates the movement of the Moon from its 'Lever' (Lowest Point) to its 'Coucher' (Highest Point). It features two yellow crowns representing the Moon's positions. A curved yellow arrow points from the lower crown on the left to the higher crown on the right. The text 'Lever' is written above the lower crown, 'Coucher' is written above the higher crown, and 'Lune' (Moon) is written to the right of the crowns. Below the crowns, the times '09h00' and '17h17' are written, corresponding to the Lever and Coucher positions respectively.

## Prévisions

 Vent faible à modéré du Sud-Est  
10-20 km/h

 Matin : 46  
Soir : 44

 Alternance de fortes averses et d'éclaircies durant toute la journée
